

Supplementary Plan

Earth: System, Structure and Processes

6. E.2.3 Explain how the formation of soil is related to the parent rock type and the environment in which it develops.
6.E.2.4 Conclude that the good health of humans requires: monitoring the lithosphere, maintaining soil quality and stewards

Contact your county's Soil and Water Conservation agent. This person will come to your classroom and has a presentation that can be adapted to different schedules. They will have materials and activities to make sure that standards are addressed. Part of each district's strategic plan includes community involvement.
